for Quality in
DOUBLE
GUNS!

∞ SIDE-BY-SIDE ∞ OVER & UNDER

In order to present to the American sportsman the finest line of quality double shotguns—in conjunction with the established American-made Ithaca family of fine guns—

ITHACA GUN COMPANY Proudly Continues Its Affiliation with SKB ARMS COMPANY, Japan

ITHACA of U.S.A.
The Expert's Choice Since 1880

SKB of Japan
The Orient's Leading Gunmakers Since 1855

ITHACA'S Great Line of ITHACA-SKB Double Guns

... WITH ALL THE QUALITY FEATURES THAT MAKE A SHOTGUN OUTSTANDING!

● **CHROME-LINED, ROTO-FORGE BARRELS**—Hard chrome lining reduces shot deformation . . . prevents rusting, pitting, leading (wipes clean with dry patch). High-tensile alloy steel, pre-stressed by forging for extra strength.

● **HAND CRAFTED AND FITTED**—Barrels are hand-struck: draw-filed by hand to eliminate waves and dips . . . no thin spots. Superbly, uniformly strong. All action components chromed and fitted to minute tolerances.

● **ITHACA RAYBAR® FRONT SIGHT**—Literally 'lights' way to target. Uses unique optical principle to gather light rays for high visibility at dawn, dusk, in heavy overcast.

● **HAND-CHECKERED STOCKS AND FORENDS**—Beautifully finished walnut.

● **HAND-ENGRAVED RECEIVERS**—Fine scroll engraving.

● **SELECTIVE SINGLE TRIGGERS**—Selector conveniently located on trigger. Smooth, crisp pull, exactly the same for both barrels . . . firing is always in sequence. Most fool-proof single-trigger mechanism yet devised.

● **PROOF-TESTED**—All guns have passed proof overload tests which greatly exceed the power of any commercial ammunition you can buy.

∞ 100 GRADE Side-by-side

- 12 gauge — 2¾" chambers
- 20 gauge — 3" chambers

Perfectly balanced . . . a lightweight gun for all-day field shooting, with: Selective Single Trigger • Non-Automatic Extractor • Raybar® Front Sight • Chrome-Lined Barrels • Automatic Safety • Border Engraving on Receiver • Hand-Checked Pistol-Grip Stock and Forend

∞ 200E GRADE Side-by-Side
