

ithacagun 1968 CATALOG

ithaca double guns side-by-side/over-and-under

**100 GRADE
SIDE-BY-SIDE**
12 Ga.—2¾" chambers
20 Ga.—3" chambers

A perfectly balanced lightweight gun for all-day field shooting. Chrome-lined barrels; double locking lugs and automatic safety.

**200E GRADE
SIDE-BY-SIDE**
12 Ga.—2¾" chambers
20 Ga.—3" chambers

A deluxe field gun with chrome-lined barrels, beavertail forend, automatic selective ejectors, automatic safety, double locking lugs, gold-plated oval nameplate, gold-plated trigger, bead middle sight, white spacers at pistol-grip cap and butt plate.

200 E SKEET models with recoil pad and nonautomatic safety are also available. 12-gauge has 2¾" chambers; 20-gauge has 3" chambers.

**500 GRADE
OVER-AND-UNDER**
12 Ga.—2¾" chambers
20 Ga.—3" chambers

A strikingly beautiful, low-profile field gun that provides the easiest swing on the windiest day. Exceptional features include chrome-lined barrels; gold-plated trigger; automatic selective ejectors, ventilated rib and nonautomatic safety.

**600 TRAP
OVER-AND-UNDER**
12 Ga.—2¾" chambers
20 Ga.—3" chambers
(20 Ga. available in skeet & field models.)

Low-profile design gives you the fastest point on the line. A remarkably fine gun that you can display or use with pride. Equipped with chrome-lined barrels, automatic selective ejectors, nonautomatic safety, double locking lugs, Monte Carlo stock, gold-plated oval nameplate, gold-plated trigger, ventilated rib, bead middle sight, white spacer at pistol-grip cap, curved trap pad.

Also available as:
600 SKEET MODEL with recoil pad and
600 FIELD MODEL with standard butt plate and white spacer.

The finest line of quality double shotguns, presented to the American sportsman by the established American-made Ithaca family of fine guns and SKB of Japan, leading gunmakers of the Orient since 1855.

CHECK ALL THE QUALITY FEATURES THAT MAKE ITHACA DOUBLE GUNS OUTSTANDING. Chrome-lined roto-forged barrel reduces shot deformation and prevents rusting, pitting, leading. Barrel wipes clean with dry patch. The barrel itself is roto-forged by a special process from high-tensile alloy steel and is pre-stressed for extra strength.

Selective single trigger, with the selector conveniently located on the trigger. Pull for both barrels is smooth, crisp, exactly the same, and firing is always in sequence. Unquestionably, Ithaca double guns have the most foolproof single-trigger mechanism yet devised.

Hand crafted and hand fitted. Barrels are individually finished to obtain the finest appearance possible and to eliminate waves and dips, prevent thin spots. All barrels are superbly, uniformly strong and all major action components are chromed and fitted to minute tolerances.

Hand checked stocks and forends are made from beautifully finished walnut, and fine hand-engraved scrollwork complements the receivers.

Ithaca Raybar® front sight literally lights your way to the target. Employing a proven optical principle, the exclusive Ithaca sight gathers light rays, concentrates them in the sight for greater speed in getting on target, greater shooting accuracy.

Actual proof testing means every gun offered for sale has successfully passed overload tests which exceed the pressures of any commercial ammunition you can buy today.

specifications

automatic shotgun models 300 and 900

Today's most outstanding value in an auto-loading shotgun, combining low initial cost with high value. Reliability has been thoroughly proven in more than six years of development and testing.

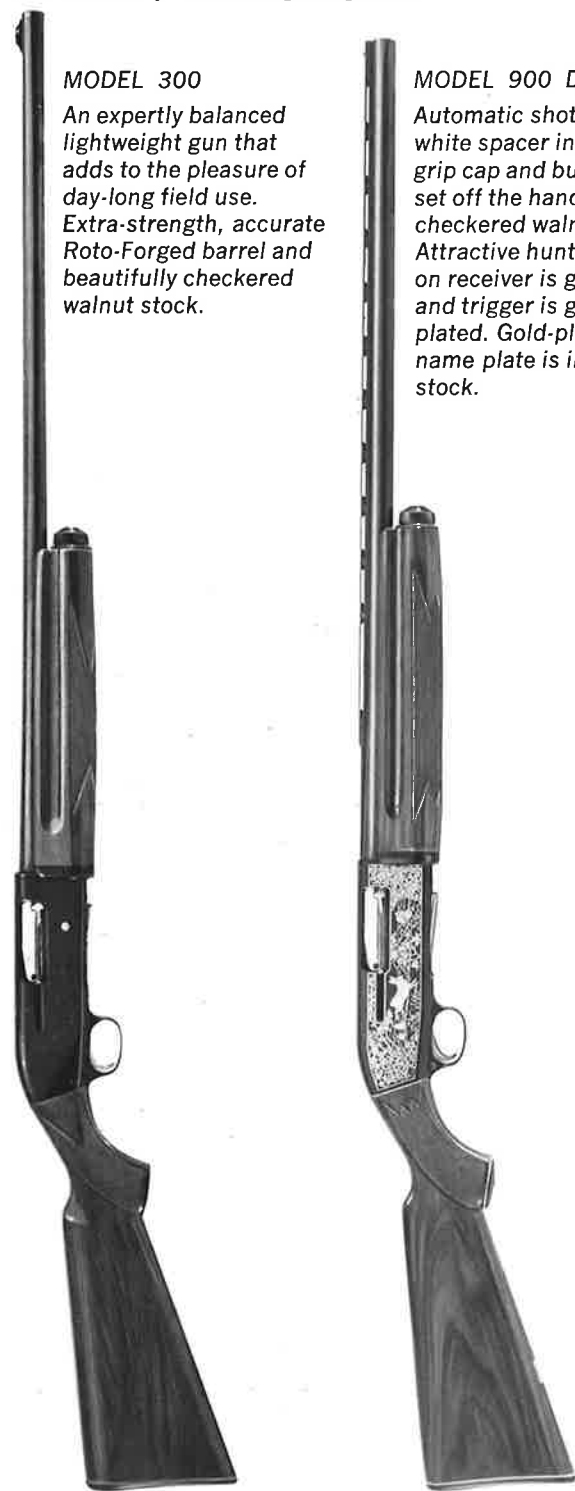

Light weight permits easy carrying and handling. Exclusive high-light finishing process used on stock and forearm of Model 900 Deluxe is applied by hand and provides the outstanding appearance long associated only with the finest grained walnut. Features positive cross-bolt safety and interchangeability of barrels. Automatic magazine cutoff permits instant change of shell loads without fully unloading magazine.

MODEL 300

An expertly balanced lightweight gun that adds to the pleasure of day-long field use. Extra-strength, accurate Roto-Forged barrel and beautifully checkered walnut stock.

MODEL 900 DELUXE

Automatic shotgun with white spacer inserts at grip cap and butt plate to set off the hand-checked walnut stock. Attractive hunting scene on receiver is gold filled and trigger is gold plated. Gold-plated name plate is inlaid in stock.
