## BY ANY VALUE ANALYSIS, YOUR BEST BUY— THE ITHACA-SKB AUTOMATIC SHOTGUN MODELS 300 AND 900

### MODEL 300

An expertly balanced lightweight gun that adds to the pleasure of day-long field use. Extra-strength, accurate Roto-Forged barrel and beautifully hand-checked walnut stock. The 20 gauge features an exclusive design which permits quick and easy changeover from 2¾" to 3" loads. Requires no special parts—only a simple adjustment which takes less than a minute. Recoil system needs no lubrication. Five shot capacity. Available with vent rib.

\$149.95\* Std.  
\$164.95\* Std. Vent

### MODEL 900 DELUXE

Automatic shotgun with white space inserts at grip cap and butt plate to set off the hand-checked walnut stock. Attractive hunting scene on receiver is gold filled and trigger is gold plated. Gold-plated nameplate is inlaid in stock. Available in 12 Ga. 2¾" or 20 Ga. 3". Five shot capacity.

### MODEL 900 SLUG GUN

Identical to the Model 900 Deluxe, except it has a 24" barrel with rifle sights for shooting slugs. Available in 12 Ga. 2¾" or 20 Ga. 3".

\$179.95\*  
Model 900 Deluxe  
\$169.95\*  
Model 900 Slug

Today's most outstanding value in an auto-loading shotgun. Combines low initial cost with high value. Reliability has been thoroughly proven in more than seven years of development and testing.

Light weight permits easy carrying. The exclusive highlight finishing process used on the walnut stock and forearm of Model 900 Deluxe is applied by hand. It provides the outstanding appearance long associated only with the finest grained walnut. Features positive cross-bolt safety and interchangeability of barrels. Automatic magazine cutoff permits instant change of shell loads without fully unloading magazine.

and the outstanding  
features of the 600 trap  
over-and-under with  
boring for superb skeet  
performance.  
Stocks are select walnut  
with a new finish that gives  
the appearance of an oil  
finish but has greater  
durability.

\$289.95\*

The finest line of quality double shotguns are a joint effort of Ithaca Gun and SKB of Japan, leading gunmakers of the Orient since 1855.

CHECK ALL THE QUALITY FEATURES OF ITHACA-SKB DOUBLE GUNS: Chrome-lined Roto-Forged barrel of high-tensile alloy steel, stress-relieved for extra strength, reduces shot deformation and prevents rusting, pitting, leading. Barrels wipe clean with dry patch.

Selective single trigger, with the selector conveniently located on the trigger. Pull for both barrels is smooth, crisp, exactly the same. Firing is always in sequence. Ithaca double guns have the most foolproof single-trigger mechanism yet devised.

Hand crafted and hand fitted. Barrels are individually finished to obtain the finest appearance possible, eliminate waves and dips, prevent thin spots. All barrels are superbly, uniformly strong. All major action components are fitted to minute tolerances.

Hand-checked stocks and forends are made from beautifully finished walnut. Fine hand-engraved scrollwork complements the receivers.

Ithaca Raybar® front sight literally lights your way to the target. Optically proven, the exclusive Ithaca Raybar sight gathers light rays, concentrates them in the sight. You pick up the target faster for greater shooting accuracy.

Actually proof tested. Every Ithaca gun sold has successfully passed overload tests which exceed the pressures of any commercial ammunition you can buy today.

**ITHACA-SKB DOUBLE GUNS  
SIDE-BY-SIDE/OVER-AND-UNDER**

**600 FIELD  
OVER-AND-UNDER**  
12 Ga.—2¾" chambers  
20 Ga.—3" chambers  
All the fine features of the superb 600 line in a field model. Standard butt plate and white spacer. Available in wide choice of chokes and barrel lengths as listed in specifications table.

\$289.95\*

**600 MAGNUM  
OVER-AND-UNDER**  
12 Ga.—3" chambers  
Superb magnum version of the 600 series, specially designed for the serious goose or duck hunter. The excellent balance and low profile of this outstanding gun mean fast point, fine handling.

\$289.95\*

**700 TRAP  
OVER-AND-UNDER  
VENTILATED RIB**  
12 Ga.—2¾" chambers  
Crafted with all the quality and performance features that make the 600 model a winner on the line—plus an extra-wide ventilated rib that provides a perfect sighting plane. Appearance complements the exceptional performance. It has a deluxe hand-engraved receiver. Stocks are select walnut with a new finish that gives the appearance of an oil finish but has greater durability.

\$395.00\*

**700 SKEET  
OVER-AND-UNDER**  
12 Ga.—2¾" chambers  
20 Ga.—3" chambers  
Identical to the 700 trap gun but presented in a skeet model.

\$395.00\*

**INTRODUCING THE VERSATILE  
ITHACA-SKB MODEL 600 AND 700  
OVER-AND-UNDER SKEET SET**

Here's a new three-in-one gun for the avid skeet shooter. One stock, three interchangeable barrels—20, 28 and .410 gauge—all with identical weight and balance. Of course, all elements of the new Skeet Set have the same high degree of handcraftsmanship you've come to expect in the 600 and 700 series guns—hand-engraved receiver, hand-checked stock and forearm.

Just four simple movements needed to change barrels—you can switch from one gauge to another in under 10 seconds. All three gauges handle beautifully, swing smoothly, shoot with the high accuracy so characteristic of Ithaca-SKB guns. The Skeet Set's a target-breaking trinity you're going to be hearing great things about in competitive shooting circles.

600 SKEET SET  
OVER-AND-UNDER

**600 AND 700  
SKEET SET  
OVER-AND-UNDER**  
20 Ga.—2¾" chambers  
28 Ga.—2¾" chambers  
.410 Ga.—2½" chambers  
Three interchangeable, ventilated rib barrels with a single action, 28" barrels.

Stock dimensions—  
14" x 1½" x 2½".  
Approximate weight—7 lbs.  
Deluxe carrying case included.
