

Ithaca MAG-10—1975

Ithaca Magnum 10 Bore—1933

Ithaca Guns
Five Years and American Handicap
years Here are the winners
greatest of all shooting
ITHACA GUN
ITHACA,

The Magnum 10 bore Ithaca, built bigger and stronger to order, has a longer, wider and stronger frame than the special Super 10 bore Ithaca designed for the 2-7/8" shell with 1-5/8 ounces of shot, the barrels and other parts have the added material and strength necessary to handle the 2 ounce load in any except a shell and this extreme load should never be used in the 3 1/4" Magnum 10 bore, but the Magnum 10 bore will handle either the 3 1/4" or the 2-7/8" shell.

The average weight is 10 1/2 pounds, the best handling barrel is the 32" but 34" can be furnished.

Capt. Chas. Askins, Gun Editor of Outdoor Life, ordered the first Magnum, a #5 ejector, and said "it is a magnificent a finer job than I thought you or anybody else could do."

Capt. Askins said in American Rifleman, "The 10 bore is the long range 12's. I take the Ithaca 10 bore."

Capt. Paul Curtis

the Ithaca Magnum 10 bore gun that which can

Ithaca over & under, side by side, & gas-auto

Ithaca doubles

All feature single selective triggers and automatic selective ejectors (except Model 100 which has extractors), and Ithaca Roto-Forged barrels.

Model 500

12-, 20-gauge. Features non-automatic safety, vent rib, barrel selector on trigger, Raybar sight. Receiver has scrolled game scene. 20-gauge shoots 2¾" or 3" loads.

Model 500 Magnum

Same as 500, 12-gauge, except chambered for 3" loads. Includes recoil pad.

Model 600

12-, 20 gauge. Trigger mounted barrel selector, non-automatic safety, vent rib, Raybar sight with middle bead. Finer grade of French walnut than Model 500. Silver-plated frame has elaborate scrollwork. White spacers a pistol grip cap and butt. 20-gauge shoots 2¾ and 3" loads.

Model 100

12-, 20-gauge. Features double locking lugs to keep action shooting tight. Automatic safety, Raybar® sight, single selective trigger, and traditional extractors. Scrolled frame. 20-gauge shoots 2¾" or 3" loads.

Model 200E

12-, 20-gauge. Same features as 100. Automatic selective ejectors, a finer grade of French walnut, beavertail forend. Extensively scrolled frame, silver finish. White spacers at butt and grip cap. 20-gauge shoots 2¾" and 3" loads.

Model 280

12-, 20-gauge. Same shooting features as 200E, plus English style straight grip, beavertail forend with wrap-around hand checkering. Scrolled game scene on frame. Note availability of special quail version choked Improved Cylinder/Improved Cylinder. 20-gauge shoots 2¾", 3" loads.

Model 500, 12, 20-gauge.

Model 500 Magnum, 12-gauge.

Model 600, 12, 20-gauge.

Model 100, 12, 20-gauge.

Model 200E, 12, 20-gauge.

Model 280, 12, 20-gauge.

Model 600 Trap, 12-gauge

Straight or Monte Carlo stock. Nicely grained French walnut wood and handsomely scrolled metal. Non-automatic safety. White spacers at grip cap and butt. Recoil pad, Bradley-type front sight with middle bead. Non-reflecting sighting ramp. Target width rib.

Model 600 Skeet

12-, 20-, 28-, .410-gauge. Low profile, fast pointing, with Model 600 main features and handsome appearance. Skeet recoil pad, non-auto safety, gold plated nameplate and trigger. Bradley-type front sight with middle bead.

Model 300 XL

The soft-recoil feel of gas-automatic operation plus reliability. 5-shot, 12-, and 20-gauge. Roto-Forged barrel, hand checkering. Plain or vent rib, Raybar sight. Reversible safety. Exclusive Magamatic Valve on 20-gauge lets you shoot any load, high or low brass, 2¾" or 3" magnum. White spacers at pistol-grip cap and butt stock. Comes with migratory game plus.

Model 900 XL

Like 300 XL except receiver is decorated with beautiful silver game scene. Trigger and nameplate are gold-plated. Vent rib only. Available with special bore slug barrel, blade sight, and rear sight grooved for scope mounting.

Century II Single Barrel Trap

Super balance and a nicely predictable trigger, plus these features: French walnut stock and semi-beavertail forearm with reverse taper; wrap-around hand checkering at 22 lines to the inch; Roto-Forged barrel; extensive scrollwork on silvered frame, trigger plate and breech; gold-plated trigger and nameplate; competition height, 12mm wide rib has matte finish, Bradley-type front sight with middle bead.
