

# SKB

Craftsmanship is standard equipment on every gun we make

## The guns that won the East.

Before you leaf through this catalog and read about our guns, we'd like to ask you to take a few minutes to read about SKB, the company that makes them.

SKB was established in Japan more than a century ago. This was the era of Match-lock guns in the orient and the superiority of SKB arms was tested by feudal lords who

ruled over much of the countryside.

Through the latter half of the 19th century and during a period roughly equivalent to the time of the winning of the wild West, a similar

story was unfolding thousands of miles away; SKB continued to build the guns which would ultimately win the East.

In fact, throughout the world, the name SKB has come to mean the premier line of field and target guns. We take great pride in this hard-earned reputation. And after reading through our catalog, we think you'll agree that this year more than ever, SKB has a gun that's just right for you. In fact, we probably have several. In any case making a decision will certainly be easier and, in the end, all the more rewarding.

## SKB Craftsmanship. It's standard equipment on every gun we make.

Trim, lithe, it becomes a part of you at your command. Many people tell us the nicest part about owning an SKB is that it's flat out beautiful to look at and hold on to. And that it shoots just like it looks and feels.

Great looks, great performance. They both start with a great pair of hands back at the factory. Hands that take extra care in fitting wood-to-metal unions. Hands that carefully checker and polish fine woods and mold blocks of ordnance-grade steel into finely scrolled frames and receivers.

At SKB craftsmanship means ruggedness, too. So all SKB guns feature Duro-Forged® barrels of high-tensile strength steel. Each barrel is stress relieved for added strength and durability. The bores are then highly hand-polished to reduce shot deformation, prevent leading or pitting. Barrels are so smooth they wipe clean with a dry patch.

Hand-crafted and hand-fitted barrels are individually finished to obtain the finest appearance possible. This eliminates waves and dips, prevents thin spots too. All barrels are superb and uniformly strong. All major action components are heat-treated to reduce wear, then fitted to minute tolerances.

Hand-checked stocks and forends are made from beautifully finished French walnut, and fine scrollwork complements the frames.

## UPLAND GAME MODELS

THERE WILL ALWAYS BE AN ENGLAND.

For many purists, hunting just wouldn't be hunting without an English-style double gun. So for the traditionalist, SKB offers a choice of either side-by-side or over-and-under upland game models.

The English influence is everywhere in these distinctive double guns. Classic British styling is highlighted by the English straight grip stock. Hand-checked stocks and forends are of beautifully finished French walnut.

Shooting features include rugged Duro-Forged® barrels of high-tensile steel, topped with a beautiful ventilated rib. Unique single selective trigger has selector mounted on the trigger. The barrels are super smooth. Major action components are fitted to minute tolerances. Other features include box-lock action, double locking lugs, selective automatic ejectors. Beautifully finished overall.

Model 680 English

Model 280 English

Model 480 English

**MODEL 680 ENGLISH.** Slim, trim, machined steel frame gives excellent balance. Silver-plated frame, intricate scrollwork. Extra fine grade of hand-checked French walnut. Spacers at butt. Non-automatic safety. English straight grip. Perfect for upland game.

**MODEL 280 ENGLISH.** Excellent for hunting quail and pheasant. Straight grip stock; scrolled game scene on frame. Automatic safety. Gold-plated trigger and nameplate. Hand checkering.

**MODEL 480 ENGLISH.** A deluxe version of the Model 280 English. The ultimate in English influence. All the features of the 280 plus deep-etched engraving on barrel. Frame is more highly engraved.

SKB FIELD MODEL  
SIDE-BY-SIDES.

NOBODY PUTS SIDE-BY-SIDES  
SIDE BY SIDE LIKE SKB.  
If SKB doesn't make the side-  
by-side that's right for you, chances  
are nobody does. With many different  
models to choose from, it's easy to  
find the model that's exactly right  
for you.

All models feature rugged  
Duro-Forged® barrels. A super-  
smooth finish inside barrels helps  
prevent pitting and leading; reduces  
shot deformation. Unique single se-  
lective trigger has selector mounted  
on trigger. Pull for both barrels is  
smooth, crisp. And lock time is ex-  
tremely fast. Stocks and forends are  
hand-checked French walnut.

Other features include  
double locking lugs, box-lock action,  
automatic safety. All major action  
parts are machined to minute toler-  
ances to insure that your SKB never  
shoots loose.

Now! Side-by-Side  
in Skeet version available in Models  
200, 400. Target shooting features in-  
clude Bradley-type front sight, middle  
bead, recoil pad, white spacers. Both  
chambered 2 3/4", 12 and 20-gauge.

Model 100 Field

Model 200 Field

Model 300 Field

MODEL 400 FIELD GRADE. The top-of-  
the-line SKB Side-by-Side. A truly deluxe  
double gun. It has all the features of the  
300 plus intricate scrollwork. Highly en-  
graved; engraving extends over a greater  
surface of the barrels. Full fancy French  
walnut stock and forend with extra fine  
hand-checkering.

The very best.

MODEL 100 FIELD GRADE. A per-  
fectly balanced lightweight field gun  
for all-day shooting. Single selective  
trigger assures consecutive firing  
order of your choice. Double lock-  
ing lugs, automatic safety, non-auto-  
matic extractor. Hand-checked  
French walnut stock and forend.  
Game scene frame.

MODEL 200 FIELD GRADE. Sleek,  
deeply-blued barrels are contrasted  
by beautifully etched silver-plated  
frame. Selective automatic ejectors  
and silver-plated forend hardware  
and trigger guard. Single selective  
trigger. Beavertail forend has beau-  
tiful hand-checkering.

MODEL 300 FIELD GRADE. Has all  
the features of the Model 200 plus an  
extensively scrolled frame. A deluxe  
grade field gun. Engraving extends  
over barrels. Fancy grade French  
walnut stock and beavertail forend  
with fine hand-checkering, and fit-  
ting throughout. Closes like a bank  
vault. A superb value.

# SKB FIELD OVER & UNDERS.

## SKB PUTS ONE GREAT FEATURE ON TOP OF ANOTHER.

You'll get a lifetime of shooting pleasure from an SKB Over-and-Under field gun. Barrels are Duro-Forged® from tough ordnance grade steel. Then they're stress-relieved for added strength and lifelong endurance. To reduce shot deformation, leading or pitting, we hand-polish their insides. Tubes wipe clean with a dry patch.

The frame is milled from solid steel, too. Even after years of rugged use, when you bring up an SKB, you get the same snug lock-up as the day you bought the gun, thanks to its unique cross-bolt locking system.

Selective automatic ejectors help you reload faster. Single selective trigger with finger-mounted

selector button lets you select the barrel you want to fire first. Electrochemically polished hammers and sears make the pull for both barrels smooth, crisp, steady the same every time.

Other features include lower locking lug, non-automatic safety, extremely fast lock time, and deep-etched silver-plated frame. Woods are select French walnut, hand-checked and polished to a deep, lustrous finish.

### MODEL 500 FIELD GRADE.

All the shooting features you'd want in a field grade double gun. Deeply-blued barrels, scrolled game scene on frame, selective automatic ejectors, single selective trigger, non-automatic safety. Positive cross-bolt locking with locking lug, vent rib to dissipate heat. Gold-plated trigger, hand-checked French walnut stock and forend.

**MODEL 500 MAGNUM.** Identical in appearance and shooting features to the standard Model 500, but specially chambered to handle a 3" magnum load. Plenty of power. Recoil pad is standard. Designed to perform when conventional guns just won't reach.

### OVER & UNDER FIELD MODELS SPECIFICATIONS

Model	Gauge (Chamber)	Barrel Length	Choke	Stock Dimensions			Weight (Lbs)

Model 600 Field

### CHOOSE YOUR GAUGE IN A DOUBLE GUN-12, 20, 28, .410.

The only small gauge over/under field guns made. Available in Models 500, 600. Your choice of gauges plus the rugged good looks of low profile frame. Quick pointing, light weight makes it the perfect all-day shooting partner.

12, 20, 28, .410

**MODEL 600 FIELD GRADE.** In addition to the features of the Model 500, the Model 600 has a full-fancy scrolled silver-plated frame and gold-plated trigger. A finer grade French walnut is evident throughout, and is accented by white spacers at pistol grip and butt. Pretty to look at, beautiful to shoot, and a pleasure to own.

**BIGGER MODEL 500 AND MODEL 600 SMALL GAUGE.** Has all the features of the Model 500 and 600 but in smaller gauges. Your choice of 28 or .410 gauge plus the good looks of fully scrolled silver-plated frame and gold-plated trigger. Low profile, quick pointing, light weight makes it the perfect all-day shooting partner.

# SKB GAS OPERATED AUTOMATICS.

EVERY ACTION HAS AN EQUAL AND OPPOSITE REACTION... EXCEPT WHEN YOU SHOOT AN SKB GAS-AUTO.

The SKB gas autos. The guns that hit hard all day without hitting you back. Thanks to its light weight and perfect balance, an XL Target

or Field Grade gun becomes a part of you so you get on target quicker. You get off all five shots as fast as you can pull the trigger. A plug is furnished to reduce capacity to 3 rounds to comply with Federal laws on migratory birds. Light recoil reduces muzzle jump so you stay on target for fast follow-up shots.

Speed, balance, light recoil: that's an SKB gas auto. XL receivers are milled from aircraft-type aluminum alloy, then they're anodized to make them beautiful. Tough Duro-Forged® barrels are super smooth to

reduce shot deformation, pitting or leading; barrels are interchangeable. Other features include five shot capacity (four in magazine, one in chamber, three-shot plug available). Positive cross-bolt type trigger safety. Its design automatically prevents firing until action is completely closed. Attractive hunting scene on

both sides of the receiver. Target Model XL 900's have attractive scroll engraving on both sides of receiver. All models have reversible safety for left-handed shooters.

Model XL 300

Model XL 900 Skeet And Trap Target

Model 900 Slug Gun

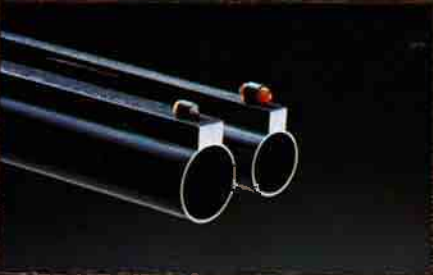

**MODEL XL 300:** Light weight, light recoil, easy handling. Duro-Forged hand polished barrel is topped with optional fluted steel to cut glare. Interchangeable barrel. Three inch magnum can be used in 20-gauge model by simply adjusting gas regulating valve. Your choice of vent rib model or plain barrel (shown).

**MODEL XL 900:** All the features of the XL 300 plus intricately etched hunting scenes on the receiver. Ven is standard equipment. Gold-plated trigger and nameplate contrast beautifully with etched receiver. White spacers at the pistol grip cap and butt set off the hand-finished stock.

**MODEL 900 SLUG GUN:** The deer hunter. Specially bored for rifled slugs, but shoots buckshot, too. Also an ideal big game gun. Comes with a fade front sight. Grooved rear sight base will accept scope. Swivels are included.

Target autos have Bradley-type front sight, left, while Field models are equipped with Ray-type sight.

**MODEL XL 900 SKEET AND TRAP TARGET.** Quick pointing, perfect balance, deeply blued barrel. Receiver is intricately scrolled. Wider vent rib makes your swing and sighting smoother. Bradley-type front sight, middle bead. Gold-plated trigger and nameplate. White spacers at recoil pad, plus all the features of the XL 900.

# NEW SKB TRAP & SKEET.

## A BORN TARGET BUSTER.

A truly thoroughbred target gun available in both trap and skeet versions.

New parallel skeet barrels are specially designed, based on modern international skeet shooting theory.

SKB's exclusive parallel barrels and non-intersecting trajectory means the shot trajectories for top and bottom barrels are on parallel planes, giving you the same aiming point for either barrel.

Built to take the punishment of repeated, heavy shooting. A new, angled wood-to-metal union at the stock soaks up more of the true recoil without extra strain on the stock. Other features include automatic selective ejectors. New, enlarged locking lug on the barrel holds barrel and frame tightly together even after years of heavy shooting. Mechanical trigger means the second shot is quickly there if you need it.

Other eye-catching features are semi-beavertail forend, accented by hand-checkered, non-slip design. Wide and semi-wide raised ribs: 16mm wide rib on trap model; 16mm and 12mm ribs for skeet models.

**MODEL 5600.** Hand-polished and deeply blued frame and barrel. Made especially for the avid target gunner. Built to take years of rugged use. Simple but elegant good looks include deep hand-checkering, white spacers.

**MODEL 5700. (NOT SHOWN).** Same features as Model 5600 plus finer grade walnut and more lines of hand checkering per square inch. Frame is case-hardened, giving a natural, "aged" look.

**MODEL 5800.** All the features of the 5600 plus lavishly hand-engraved frame and barrel top. Ivory grip cap.

# SKB TRAP&SKEET OVER & UNDERS.

... AND THEY SHOOT JUST LIKE  
THEY LOOK - BEAUTIFULLY.

SKB target over/under  
models are built for the novice as  
well as for the competition-minded.

Excellent balance and super-  
low profile gives you the fastest  
point on the line. Tough, ordnance-  
grade steel barrels are super smooth

to reduce shot deformation, leading  
or pitting; and they wipe clean easily.

Looks? What can we say  
about looks that your own eyes aren't  
telling you right now? You're

looking at a deep, hand-checked  
French walnut stock and forend, set  
off by white spacers. Finely etched  
scrollwork on trim, silver-plated  
frame; barrel, trigger guard and tang  
are scrolled, too. Gold-plated trigger

has trigger-mounted selector button.  
There's even an inlaid nameplate  
waiting for your initials.

You'll be just as proud to  
own one of these beauties as we  
were in building it. All our pride and  
reputation steps up to the line every  
time you do.

Model 880

MODEL 880. The only SKB gun with  
side plates. Has same features as  
Model 800 plus the finest grade of  
French walnut. Every part is worked  
by hand. Extensive hand-engraving  
throughout.

Ideal trap gun for Handicap, 16-yards,  
Doubles, International. Selective  
automatic ejectors, Duro-Forged\*  
barrels. Trigger-mounted selector  
button, non-automatic safety. Hand-  
checked French walnut.

These fine double guns  
bring out all the shooter that's in  
you, and some you didn't know  
was there.

\*Applies only for Model 700

MODEL 700. Scrolled silver-plated  
frame, hand-polished barrels. Extra  
wide rib helps you "main street"  
every shot. Skeet or trap models.

Model 700.

MODEL 800. It has all the standard  
SKB features plus looks that just  
won't quit. This elegant SKB is en-  
hanced by fine French walnut, ivory  
grip cap and recoil pad with white  
spacers. Richly etched scrollwork  
frame and barrel. Deep hand-  
checkering is accented by distinc-  
tive scallop-edged border - an SKB  
exclusive.

Model 800.

MODEL 600. All the features of  
Model 600 Field Grade (see page 7)  
but specially designed for target  
busting. The 600 skeet model is the  
only skeet gun which offers 12, 20,  
28 and 410-gauge barrels.

Model 600

SKB Field and Target ribs, 7mm (field),  
9mm, 12mm.

## TO BREAK A HUNDRED STRAIGHT...

To break a hundred straight ... it's the dream of every target shooter. And with the Century Single Barrel Trap, you've never had a better chance to string a hundred hits together.

Check out the features of the Century and you'll find that it compares favorably to some of the legendary single barrel guns, but at a less-than-legendary price. Features for example, like a reverse taper and semi-beavertail forearm with wrap-around hand-checkering at 22 lines per inch. Wood is select French walnut, of course. Silver-plated frame, trigger plate and breech are extensively scroll etched. Gold-plated trigger and inlaid nameplate. Wide rib is matted to cut glare.

Specially choked for Singles and Handicap events, the Century has a competition-tough barrel. In fact, own one of these beauties and you own the only black-chromed Duro-Forged® barrels with chrome-lined bores in the world. Automatically ejects or extracts shells. Electro-chemically polished trigger and sear gives you crisp, consistent response with exceptional lock time.

Every Century is packed with its own shooting pattern. So you'll know, even before you buy the gun, why we say: sometimes it takes a Century to break a century.

## SKB CENTURY SINGLE BARREL TRAP.

## SKB COMBINATION SET 20, 28, .410.

The 3-in-1 gun that tells everyone you came to win. One frame, three different barrels. All are made together to work together and hit together. It has all the features of the Model 600 but is specially bored and chambered for Skeet.

All three gauges are matched for balance so you don't have to start a new event "cold turkey" with a completely different gun. Richly scrolled frame, hand-checked and hand-rubbed French walnut throughout. Packed in deluxe, fitted case; pattern sheets for each barrel included.
