For those shooters who prefer the traditional fine double, SKB offers the 385 Series and 485 Series in 20 ga and 28 ga with either a pistol grip or English style stock.

385 SERIES
 The 385 Series features a silver nitride receiver with a finely engraved scroll and game scene design. The solid boxlock action with double locking lugs will provide years of dependable service. The 26" barrels are fitted with a solid rib with a flat matte finish.

485 SERIES
 The 485 Series is a side plated boxlock which features a beautifully engraved upland game scene. The 485 is hand fitted with a semi fancy American Walnut stock & beavertail forend. The 26" barrel group is fitted with a raised ventilated rib with a flat matte finish.

STANDARD FEATURES
 The SKB Side By Side is equipped with an automatic safety and selective automatic ejectors ensuring fast and easy reloading in the field. The single selective trigger allows for simple, positive barrel switch over. The barrels have lengthened forcing cones and are fitted with the standard series inter-choke tube system which is suitable for steel shot. The stock and forend are sculpted from semi-fancy American Walnut, finished with 17 line checkering and protected with a high gloss lacquer for richness and lasting durability.

The 385 Series is also offered as a two barrel set, with 20ga/26" & 28ga/26" barrels.

485 Series Raised Ventilated Rib

The new 785 series inherits its distinctive styling, engraving and finish from SKB's "MJ - 5" premium grade competition over & under. The "MJ - 5" was designed and handmade specifically for Mr. Miura, the president of the NEW SKB ARMS COMPANY, a distinguished shooter in his own right. This beautiful design incorporates the performance features required by a professional target shooter and the artistry of handcrafted quality found only in the premium grade shotguns.

The Field and Field Sets are designed to provide the hunter with a well balanced, fast shouldering shotgun. The guns are dimensioned for consistent point and swing control, and are chambered in 12, 20, 28, & 410 gauge. Our standard features include: a finely engraved low profile receiver, Greener cross-bolt, box lock action, manual safety conveniently located on the top tang, single selective trigger, and selective automatic ejectors. Each shotgun is fitted with a sculpted pistol grip stock & forend, finished to a high gloss for richness and lasting durability.

The 785 & 585 series 12 gauge models feature an oversized .735 diameter bore, lengthened forcing cones, and the competition series inter-choke system. These performance features greatly enhance the overall effectiveness of the shotgun by reducing shot pellet deformation, reducing perceived recoil, and by producing more uniform pellet patterns.

The SKB receivers are milled from a solid block of steel by a multi-head Hitachi robotic machine tool. This state-of-the-art equipment insures precise tolerance in critical components.

505 FIELD

OUR MOST AFFORDABLE,
WITH AN EMPHASIS ON QUALITY!

SKB'S 505 Field Over & Unders are designed with an emphasis toward *Quality and Affordability*. These models are an extraordinary value, equipped with standard features which include a finely engraved receiver with a deep blue finish, a single selective trigger, automatic selective ejectors, manual safety, a finely checkered American Walnut stock and forend and the standard series choke tube system.

WATERFOWLER

The WATERFOWLER was designed for steel shot and the incimate conditions of waterfowl hunting. Factory performance tuned with chrome lined back bored barrels and lengthened forcing cones, chrome lined chamber, and chrome plated ejectors, along with the competition series choke tube system.

The WATERFOWLER features a distinctively different and proud new look for SKB. The receiver and barrel assembly are prepared by a bead blasting process.

CHROME
BORES, CHAMBERS
& EJECTORS

This produces a metal surface with a satiny, non-glare appearance. Then, the receiver is plated with highly durable silver nitride and the barrel assembly blued, resulting in an attractive, yet functional finish. The stock and forend have an oil finish to reduce glare.

585 YOUTH & LADIES

The new "Youth and Ladies" model 585 Field takes into consideration the shorter arm reach of these individuals by featuring a shorter length of pull of 13 1/2 inches. This new stock dimension gives these shooters a natural quick pointing fit and is well balanced for good swing control. The 12 gauge models incorporate all the '85 Series standard features: oversize bores, lengthened forcing cones and competition series choke tubes.

Sporting Clays is a challenge to every sportsman who has ever shot a course; where targets move in every conceivable direction. Mastering this sport requires more than concentration and instinct. It requires a shotgun with responsive fit, balance and a fast sighting plane.

The Sporting Clay models are available in three grades; the 785, 585, and 505 with barrel lengths of 28, 30 and 32 inches.

The 505 Sporting Clays model is available in 12 gauge with barrel lengths of 30" and 28". The 505 features a schnabel forend and the standard series choke tube system.

The SKB Sporting Clay Shotgun features a low profile receiver, a stepped target style rib, a radiused recoil pad and a special sporting clay stock dimensioned for the competitive edge.

Practice. Practice. Practice...are the requirements of being a successful Sporting Clays shooter and field hunter alike. The SKB Sporting Clays Over & Under gives the sportsman the advantage of having a shotgun equipped with 3" chambers. This allows the shooter to practice hunting style shots on the sporting clays course with 2 3/4" target loads developing a comfortable and instinctive style of shooting. These skills are easily taken to the field with the same shotgun using heavier 3" field loads. That's the beauty of the 3" chambered SKB Sporting Clay Over & Under.

Final assembly requires many years of skill and judgement, to insure that all parts have proper fit, alignment, engagement and timing.

SKEET & 3 BBL SETS

785

Featuring: CHROME LINED BORES
CHROME LINED CHAMBERS
CHROME PLATED EJECTORS

585

585 & 785 SKEET SETS

The SKB Skeet Over & Unders have been favorites on the range for many years and are available in both the 585 and 785 series. Our competition guns give the shooter the confidence and a solid sense of balance when ... "breakin' clays is all that matters".

Our standard features include low profile receiver with a box-lock action, manual safety, single selective trigger, automatic ejectors, a matte sighting plane equipped with a nickel center post and white front bead. All Skeet style buttstocks, regardless of gauge, are fitted with a radius butt pad for a fast sure mount. The 12 gauge models are performance tuned which includes oversized diameter bores (.735 approx.), lengthened forcing cones and the competition series choke tube system.

Consistency in weight, balance and feel are trademarks of the SKB Skeet 3-Barrel Set. The set is available in 20, 28 & 410 gauge in both the 585 and 785 series. Each barrel set is furnished with its' own forend, and all fit precisely to the same action. An airline approved fitted aluminum case is included to protect your investment.

Ventilated ribs are attached and aligned with precision computer controlled equipment for correct point of impact.

INTER-CHOKE SYSTEMS

COMP. - Competition series includes 2 Imp. Mod., Full, Trap Full
COMP-A - Competition series includes Imp. Mod., Full, Trap Full
CP/WFB - Center Post White Front Bead
STP - Step Up Rib
CH/STP - Center Channeled Semi Wide Step Up Rib

STOCK DIMENSIONS
Length of Pull - 14 1/4"
Drop at Comb - 1 13/8"
Drop at Heel - 1 3/8" (STND)
Drop at Heel - 2" (MONTE)

The SKB line of Over & Under Trap Guns has evolved over many years of effort to provide the serious trap shooter with an affordable shotgun that considers weight, balance, fit, feel and trigger pull. Trap Combo's feature a set of over & under barrels and a single over barrel that utilize an interchangeable forend. These combinations are available in both the 585 and 785 grade, with a choice of three barrel length configurations and a choice of either a Standard trap stock or a Monte Carlo trap stock.

The 785 Series Trap Models are factory performance tuned with chrome plated back bored barrels, chrome plated chambers, lengthened forcing cones, a jeweled monobloc and chrome plated ejectors. The sighting plane starts with a non-reflective finish along the top of the receiver and transitions into a 12mm wide center channeled, step up target style ventilated rib equipped with a nickel center post and a white bead front sight.

The 585 Series Trap Models also feature the factory performance tuning which includes oversized bore diameters and lengthened forcing cones to reduce recoil and deformation of shot pellets. The sighting plane on the 585 is a 9.5mm wide step up target style ventilated rib equipped with nickel center post and a white front bead. Both the 785 and 585 are equipped with the competition series choke tubes.

SKB EXTENDED CHOKE SYSTEM

STAINLESS STEEL EXTENDED CHOKES "PORTED" or "KNURLED"

COMPETITION SERIES - 12 GA. ONLY

MANUFACTURERS ID#		RIM		PATTERN WITH	PATTERN WITH
PORTED	KNURLED	NOTCHES	CONstriction	LEAD SHOT	STEEL SHOT
SPCST12TF	SCST12TF	NONE	.035	TRAP FULL	**

SPCST12IC	SCST12IC	6	.005	IC/SC II	MOD
SPCST12SKI	SCST12SKI	7	+ .005	SK I/SC I	IMP CYL

NOTE: Competition Series For SKB Models: 585, 685, 785 and 885 A series only.

The new stainless extended tubes are designed for the 12 gauge "Backbored Barrels". The laser cut elliptical "ported" choke tube and the "knurled" choke tube allow the shooter a *quick* and *effective* means to adjust the pellet pattern for the target being presented.

EXTENDED CHOKES

Backbored Barrels and a longer choke taper produce more uniform pellet pattern densities.
