SKB SHOTGUNS

Proudly presents The Millennium Edition

The Millennium Edition features the beautiful artwork of renowned wildlife artist Ron Van Gilder. Ron is not your average outdoorsman-turned-artist. Indeed, he is a dedicated sportsman – but one who has spent his entire life studying and learning both in the field and at the easel. His knowledge and love of the outdoors, together with his well-honed, artistic skills have produced wildlife art widely recognized for its creativity, true-to-life realism and natural beauty.

His work has garnered numerous awards and honors. In 1987, he designed the Minnesota and Maine Duck Stamp Prints and was named the Boys Scouts of America's Artist of the Year. Soon after, he was named Artist of the Year for both the Minnesota Waterfowl Association and the Wildlife Heritage Foundation. In 1990, he received DU's highest artistic honor when he was named the Ducks Unlimited "International Artist of the Year."

The **785 Millennium Edition** features three distinctive waterfowl medallions; graceful Canadian Geese, gliding Canvas Backs and a landing Mallard. The stock and forend are hand selected, semi fancy American Black Walnut. Availability is limited to either Field or Sporting Clay models in 12 and 20 gauge.

The **585 Millennium Edition** features two beautiful medallions of an elusive pair of pheasants. The stock and forend are a select standard grade of American Black Walnut. Shotguns are available in either Field or Sporting Clay models in 12 and 20 gauge.

About the Medallion Series

785 MODELS

SIDE VIEW

BOTTOM VIEW

The 785's feature:

- Hand selected semi fancy Black Walnut stocks

The 585's feature:

All of the features of the 785 with the exception of the following:

- Standard grade walnut
- Standard chrome moly barrels
- Standard mono block finish

The **Medallion Series** is being offered as an economical method of producing a limited quantity of custom shotguns for any special event, fund raising event, or incentive award. Your artwork; be it game scenes, gun club logo or company logo, will be transformed into beautiful medallions which are epoxy coated to maintain a lasting luster. The final product is a custom shotgun that commemorates your special event.
